- **Product Break Down:**
 - Base is made of powder coated metal, to get our color code—74 Silver
 - Beverage tank and ice/infusion chamber is made of acrylic
 - Beverage tank starts out as flat piece that is heated up and bent around a mold at the corners to get its shape—lid is made the same way
 - Bottom of beverage dispenser is attached with a glue joint, and the peg for the ice or infusion chamber is added
 - Ice Chamber: No holes so the ice does not dilute the beverage
 - Infusion Chamber: Has holes so the fruit juice will infuse the beverage
 - Care Instructions: Hand wash with mild detergent
